STEAM-Powered Programs: Get a Head Start on Summer Planning

About Us

PCS Edventures History

Started as Pat's Computer School in 1988

PCS Edventures learning solutions are now in more than 7000 sites in all 50 states and over 17 other countries

Philosophy: Hands-on projects fuel a passion for learning and a lifelong love of STEM

- No More Guesswork
- Time-Saving
- Comprehensive Solutions

PCS Edventures Enrichment Camps

PCS Camps are designed to engage communication and reasoning skills among early learners

All camps include:

- Instructor Guide
- 12 one-hour lessons
- Extension ideas
- Printed student handouts
- All supplies needed for 30 students

Multiple Standards Frameworks

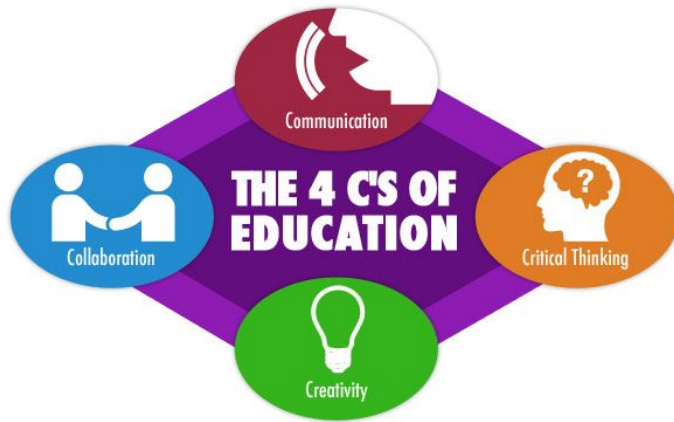

- Common Core State Standards (CCSS) for Mathematics
- Next Generation Science Standards (NGSS)
- International Society for Technology in Education (ISTE) Standards for Students

Focus on Soft Skills

21st Century Learning Skills

Essential Habits of Mind

Developed by
Art Costa and
Bena Kalick

Pre-Designed, Standards-Aligned STEAM Solutions

- No More Starting from Scratch
- Scalable and Customizable
- Standards-Aligned

Nurturing the Explorers of Tomorrow

- Curiosity Unleashed
- A Love for Learning
- Empowered and Inspired

WORLD of WONDERS

PCS edventures!™

WORLD of WONDERS

Step into My Time Machine!

Grab your passports and binoculars and step into our time machine for an adventure like no other at World of Wonders camp! Explore ancient wonders like the Great Wall of China and Machu Picchu through **hands-on STEAM** activities that spark **creative thinking** and **collaborative learning**, while discovering your own wonder of the world.

Tackle exciting **engineering** and **problem-solving** challenges with a **growth mindset**. Enjoy imaginative art projects and **interactive** experiences that enhance **cultural awareness, critical thinking, reflection and multi-subject integration**. Get ready for a camp filled with **positivity** and happiness as you explore what makes our world wonderful.

My Wonder of the World

Have you ever wondered how to find happiness?

Here is a story about a boy who talked to the earth to find out how to be truly happy.

<https://youtu.be/ra2RkMZAYs0?feature>

" I'VE TRAVELED SO FAR AND SEEN SO MUCH,
BUT I **STILL** HAVEN'T FOUND HAPPINESS."

"**EARTH**, ARE YOU
LISTENING?"

CRIED THE BOY.

**Did you look
without seeing?**

Let's imagine a time and place that you consider a wonder and would love to visit-whether it's from long ago, the present, or even the future. Think about what sparks your curiosity.

Close your eyes and picture what that place looks like and how it makes you feel.

Remember, we can discover beauty and wonder right in our own backyards and communities- we just need to open our eyes and hearts to experience it!

WONDER

Look through your pretend binoculars at your wonder of the world. What do you see? Use your senses to explore it even more.

Relaxing Egyptian Music

PCS edventures!™

WORLD of WONDERS

Updated Enrichment Programs

Ahoy, matey! Join Pirate Camp for a STEAM-filled adventure on the high seas! Young washbucklers build catapults, explore pirate science and navigate treasure maps. Each day starts with an exciting story to spark imagination as campers work together to tackle fun challenges. Adventure and discovery await!

Flourish in the whimsical world of tunnel books with this STEAM-filled exploration of plants and seeds! Challenge learners to channel their inner storyteller as they create a free-standing, sculptural artwork to visually explain the lifecycle of a plant. Referencing the five kinds of seed dispersal: gravity, water, wind, animal and attachment, each lesson builds problem-solving skills, confidence and creativity as students construct a one-of-a-kind work of art.

A Year of STEAM Inspiration
